Through the sponsorship of the OUSDP&R, the creation of the ADL Initiative was formed as a developer and implementer of learning technologies across the Department of Defense (DoD).

ADL employs a structured, adaptive, collaborative effort between the public and private sectors to develop the standards, tools and learning content for the learning environment of the future. The vision of the ADL Initiative is to provide access to the highest-quality learning and performance aiding that can be tailored to individual needs and delivered cost-effectively, anytime and anywhere.
